Explanatory Notes Pursuant to Malaysian Financial Reporting Standard 134 ("MFRS 134") Interim Financial Reporting

1. Basis of Preparation

The unaudited condensed interim financial statements of the Group and of the Bank have been prepared under the historical cost convention except for the following assets and liabilities that are stated at fair values: financial assets at fair value through profit or loss, financial investments at fair value through other comprehensive income and derivative financial instruments.

The unaudited condensed interim financial statements have been prepared in accordance with MFRS 134 *Interim Financial Reporting* and IAS 34 *Interim Financial Reporting*.

The unaudited condensed interim financial statements do not include all the information and disclosure required in the audited financial statements, and should be read in conjunction with the audited financial statements for the financial year ended 31 December 2018. These explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group and of the Bank since the year ended 31 December 2018.

The unaudited condensed interim financial statements include those activities relating to the Islamic banking business which have been undertaken by the Group. Islamic banking business refers generally to capital market and stockbroking activities under the principles of Shariah.

The significant accounting policies and methods of computation applied by the Group and by the Bank are consistent with those adopted in the most recent audited financial statements for the financial year ended 31 December 2018 except for adoption of the following Malaysian Financial Reporting Standards ("MFRSs") and annual improvements to MFRSs which are effective for annual periods beginning on or after 1 January 2019:

	Effective for annual periods beginning on
Description	or after
·	
MFRS 9 Prepayment Features with Negative Compensation (Amendments to MFRS 9)	1 January 2019
MFRS 16 Leases	1 January 2019

1. Basis of Preparation (Cont'd)

MFRS 16 Leases ("MFRS 16")

Before the adoption of MFRS 16, the Group and the Bank classified each of its leases such as premises for branches, data centres and IT and office equipments at the inception date as either a finance lease or an operating lease in accordance with MFRS 117 Leases. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Group or the Bank; otherwise, it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability. In an operating lease, the leased assets were not capitalised and the lease payments were recognised as rental expense in the statements of comprehensive income on a straight-line basis over the lease term. Any prepaid and accrued rent were recognised under other assets:prepayments and other liabilities:accruals, respectively.

MFRS 16 is mandatorily applicable initially for annual periods beginning on or after 1 January 2019 and replaces MFRS 117, IC Interpretation 4 Determining whether an Arrangement contains a Lease, IC Interpretation 115 Operating Lease — Incentives and IC Interpretation 127 Evaluating the Substance of Transactions involving the Legal Form of a Lease. MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under MFRS 117. Lessor accounting under MFRS 16 is substantially unchanged from MFRS 117. Lessors will continue to classify leases as either operating or finance leases using similar principles as in MFRS 17. Therefore, MFRS 16 did not have an impact for leases where the Group or the Bank is the lessor.

The Group and the Bank have analysed the impact of the first-time application of MFRS 16, including existing processes, systems and policies. The Group and the Bank have developed its approach for assessing the different types of leases including applying the recognition exemptions in the standard that allows the Group and the Bank not to recognise right-of-use assets and lease liabilities for short-term leases and leases of low-value assets; and incorporating forward-looking assumptions in making certain decisions such as extension and termination options on lease contracts of which management have assessed on a case by case basis.

Leases previously classified as operating leases - The Group and the Bank as lessee

On 1 January 2019, the Group and the Bank have applied MFRS 16 for the first time using the modified retrospective approach, which requires the recognition of the cumulative effect of initially applying MFRS 16, to the retained earnings brought forward and not restate prior year/period comparatives information which remain as previously reported under MFRS 117 and related interpretations. The Group and the Bank also made use of the transition practical expedient in the standard to not recognise lease arrangements for which the lease term ends within 12 months of the date of initial application. The Group and the Bank have elected, on a lease-by-lease basis, to recognise the right-of-use assets at the amount equal to the lease liabilities, hence there were no impact to the retained earnings brought forward as at 1 January 2019

The Group and the Bank elected the following transition practical expedients on a lease-by-lease basis for measurement purposes at first-time application of the standard:

- (1) A single discount rate was applied for those portfolio of leases with reasonably similar characteristics such as leases with a similar remaining lease term for a similar class of underlying asset in a similar economic environment;
- (2) Short-term lease contracts with a term not exceeding 12 months at the date of initial application are not recognised under MFRS 16;
- (3) Initial direct costs are excluded from the measurement of the right-of-use asset at the date of initial application; and
- (4) The Group and the Bank used hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.

The detailed financial impact of the adoption of MFRS 16 on the financial statements of the Group and of the Bank are disclosed in Note 33.

Explanatory Notes Pursuant to Malaysian Financial Reporting Standard 134 ("MFRS 134") Interim Financial Reporting (Cont'd)

1. Basis of Preparation (Cont'd)

MFRS 16 Leases ("MFRS 16") (Cont'd)

Right-of-Use Assets

At inception of a contract, the Group and the Bank assess whether a contract is, or contains, a lease arrangement based on whether the contract that conveys to the user (the lessee) the right to control the use of an identified asset for a period of time in exchange for consideration. If a contract contains more than one lease component, or a combination of leasing and services transactions, the consideration is allocated to each of these lease and non-lease components on conclusion and on each subsequent re-measurement of the contract on the basis of their relative stand-alone selling prices. The Group and the Bank combines lease and non-lease components, in cases where splitting the non-lease component is not possible.

The Group and the Bank recognise right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The lease term includes periods covered by an option to extend if the Group is reasonably certain to exercise that option. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment assessment.

Lease Liabilities

At the commencement date of the lease, the Group and the Bank recognise lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and the Bank and payments of penalties for terminating a lease, if the lease term reflects the Group and the Bank exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group and the Bank use the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-Term Leases and Leases of Low-Value Assets

The Group and the Bank apply the short-term lease recognition exemption to its short-term leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. It also applies the lease of low-value assets recognition exemption to leases of assets that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Significant Judgement in Determining the Lease Term of Contracts with Renewal Options

The Group and the Bank determine the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

(15938-H)

(Incorporated in Malaysia)

Explanatory Notes Pursuant to Malaysian Financial Reporting Standard 134 ("MFRS 134") Interim Financial Reporting (Cont'd)

1. Basis of Preparation (Cont'd)

MFRS 16 Leases ("MFRS 16") (Cont'd)

Significant Judgement in Determining the Lease Term of Contracts with Renewal Options (Cont'd)

The Group and the Bank have the option, under some of its leases to lease the assets for additional terms of three to five years. The Group and the Bank apply judgement in evaluating whether it is reasonably certain to exercise the option to renew. That is, it considers all relevant factors that create an economic incentive for it to exercise the renewal. After the commencement date, the Group and the Bank reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew (e.g., a change in business strategy). The Group included the renewal period as part of the lease term for leases of premises and IT equipments due to the significance of these assets to its operations.

2. Significant Accounting Policies

The audited financial statements of the Group and of the Bank for the financial year ended 31 December 2018 were prepared in accordance with MFRS, International Financial Reporting Standards ("IFRS") and the requirements of the Companies Act 2016 in Malaysia. The significant accounting policies adopted in preparing these unaudited condensed interim financial statements are consistent with those of the audited financial statements for the financial year ended 31 December 2018 except for the adoption of the new MFRS, amendments to MFRS and annual improvements to MFRS which are effective for annual periods beginning on or after 1 January 2019 as disclosed in Note 1.

3. Significant Accounting Estimates and Judgements

The preparation of unaudited condensed interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of income, expenses, assets, liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Although these estimates and judgements are based on management's best knowledge of current events and actions, actual results may differ.

In preparing these unaudited condensed interim financial statements, the significant judgements made by management in applying the Group's and the Bank's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited financial statements for the financial year ended 31 December 2018.

4. Auditors' Report on Preceding Annual Financial Statements

The auditors' report on the audited financial statements for the financial year ended 31 December 2018 was not qualified.

5. Seasonal or Cyclical Factors

The operations of the Group and of the Bank were not materially affected by any seasonal or cyclical factors during the second quarter ended 30 June 2019.

6. Unusual Items Due to Their Nature, Size or Incidence

During the second quarter ended 30 June 2019, there were no unusual items affecting the assets, liabilities, equity, net income or cash flows of the Group and of the Bank.

7. Changes in Estimates

There were no material changes in estimates during the second quarter ended 30 June 2019.

8. Changes in Debt and Equity Securities

There were no issuances, cancellations, share buy-backs, resale of shares bought back and repayment of debt and equity securities by the Group and the Bank during the second quarter ended 30 June 2019.

(15938-H)

(Incorporated in Malaysia)

Explanatory Notes Pursuant to Malaysian Financial Reporting Standard 134 ("MFRS 134") Interim Financial Reporting (Cont'd)

9. Changes in the Composition of the Group

There were no changes in the composition of the Group during the second quarter ended 30 June 2019.

10. Dividends Paid/Payable

There were no dividends paid or payable during the second quarter ended 30 June 2019.

11. Significant and Subsequent Events

There were no significant and subsequent events during the second quarter ended 30 June 2019.

12. Performance Review

For the financial period ended 30 June 2019, the Group's operating profit dropped by 16.3% to RM42.4 million from RM50.7 million during the same period last year mainly due to lower income.

Net income decreased by 5.0% from RM195.3 million to RM185.4 million. Non-interest income dropped by RM16.9 million to RM153.3 million due to lower investment income. However, income from Islamic Banking Scheme operations increased by RM3.3 million to RM33.4 million as a result of higher fee and commission income during the period. Net interest income decreased by 13.5% to RM10.2 million mainly due to higher interest expense from deposits and placements from a financial institution.

Overhead expenses decreased by 1.1% or RM1.6 million to RM143.0 million from RM144.6 million in the previous corresponding period. This was mainly contributed by the decrease in establishment and marketing costs during the period.

The Group's profit before taxation and zakat decreased by 11.4% or RM5.5 million from RM48.5 million to RM43.0 million. Profit for the period dropped by 14.4% or RM5.2 million to RM30.8 million from RM36.0 million compared to the previous period.

13. Business Outlook

Global GDP growth is expected to ease in 2019 to +3.2% from +3.6% in 2018 amid fallout from the US-China trade war disrupting global trade flows. The slowdown in global GDP growth is expected to be led by major advanced economies including the US (2019E: +2.5%; 2018: +2.9%) and Eurozone (2019E: +1.2%; 2018: +1.9%), as well as large emerging markets such as China (2019E: +6.2%; 2018: +6.6%), Brazil (2019E: +1.1%; 2018: +1.1%) and Russia (2019E: +1.2%; 2018: +2.3%).

A slower pace of growth is also projected for the ASEAN-6 countries (2019E: +4.2%; 2018: +5.0%) on the back of slower global economic and trade growth. Malaysia is expected to chart slower growth at +4.4% in 2019 (2018: +4.7%). However, recovery in the mining and agriculture sectors as well as stimulus to domestic demand from Bank Negara Malaysia's interest rate cut in May 2019 and the revival of major infrastructure projects and Government development spending previously put under review are seen as constructive for the economy.

Against this backdrop, corporate earnings growth for 2019E is expected to slowdown to +1.1% for KLCI and +2.6% globally. At this juncture, it is expected that earnings risks remain tilted towards the downside. For the Malaysian fixed income market, local corporate bonds may see issuances at a healthy, if not higher pace, in the second half of 2019. Low yields may attract some opportunistic issuances to lock in medium to longer term funding.

Barring any unforeseen circumstances, the Bank expects its financial performance for 2019 to be satisfactory against the expected growth prospects in Malaysia.

28. Capital adequacy

(I) Capital Adequacy Framework

The capital adequacy ratios of the Group consist of capital base and risk-weighted assets derived from consolidated balances of the Bank and its subsidiary companies. The capital adequacy ratios of the Bank consist of capital base and risk-weighted assets derived from the Bank.

The computation of capital adequacy ratios are based on Bank Negara Malaysia ("BNM") Capital Adequacy Framework (Capital Components) and Capital Adequacy Framework (Basel II - Risk Weighted Assets) issued on 2 February 2018 respectively.

The Group and the Bank adopted the Standardised Approach for Credit Risk and Market Risk, and the Basic Indicator Approach for Operational Risk.

The minimum regulatory capital adequacy requirements for Common Equity Tier 1 ("CET1"), Tier 1 and Total Capital are 4.5%, 6.0% and 8.0% of total risk-weighted assets respectively.

The capital adequacy ratios of the Group and of the Bank are as follows:

	Group	Bank
At 30 June 2019	%	%
At 30 June 2015		
CET1 capital ratio	31.750	29.939
Tier 1 capital ratio	31.750	29.939
Total capital ratio	33.303	31.505
	Group	Bank
At 31 December 2018	%	%
CET1 capital ratio	24.574	22.976
Tier 1 capital ratio	24.574	22.976
Total capital ratio	26.198	24.616

(15938-H)

^{*} The credit equivalent amount and the risk-weighted amount are derived at using the credit evaluation conversion factors and risk weights respectively as specified by BNM for regulatory capital adequacy purposes.

Contingent liabilities

The Group and the Bank are defending all of the claims under litigation, through their solicitors, the outcomes of which are subject matter for the Courts to eventually determine.

Case 1

On 5 November 2012, four (4) holders of a bond ("Bondholders") issued by a company filed a claim against the Bank and five (5) other defendants to recover their losses arising from the limited recovery made by the Bondholders following the default of the company's bonds. The claims by the Bondholders, inter alia, include the sum of RM156.3 million or any other sum that the Court deems fit.

Following an order in terms of a joinder application by two (2) applicants to be added as 5th and 6th plaintiffs to the suit, the quantum of the claim increased from RM156.3 million to RM177.3 million to reflect the 5th and 6th plaintiffs' respective claims. On 17 September 2014, a 7th plaintiff was added and joined to the suit with no change to the quantum claimed of RM177.3 million.

On 4 September 2015, the trial of the matter concluded. On 17 February 2016 and 24 February 2016, parties attended Court for oral submissions.

On 24 July 2017, the High Court found in favour of the Bondholders for the sum of RM177,248,747.31 against the Defendants in the following proportion:

- (a) 1st, 2nd and 3rd Defendants 100% liable;
- (b) The Bank (4th Defendant) 50% liable;
- (c) The 5th Defendant 30% liable; and
- (d) The 6th Defendant 20% liable.

On 5 October 2017, upon hearing further clarification and submissions on the judgment sum, applicable interest and costs, the High Court held:

- (a) The Judgment against the Defendants is for the sum of RM177,248,747.31;
- (b) The total damages that the Bondholders can recover from the Defendants shall not exceed the aggregate sum of RM177,248,747.31;
- (c) Interest shall be calculated on the reduced sum of RM148,653,953.20 at the rate of 5% per annum from 1 November 2011 until full and final settlement; and

(15938-H)

(Incorporated in Malaysia)

29. Commitments and contingencies (Cont'd)

Contingent liabilities (Cont'd)

Case 1 (Cont'd)

On 5 October 2017, upon hearing further clarification and submissions on the judgment sum, applicable interest and costs, the High Court held: (cont'd)

- (d) Costs as awarded against the Defendants in favour of the Plaintiffs:
 - (i) 1st 3rd Defendants : RM350,000;
 - (ii) The 3rd Defendant to pay costs of RM100,000 for the dismissal of his counterclaim;
 - (iii) The Bank to pay costs of RM300,000;
 - (iv) The 5th Defendant to pay costs of RM150,000; and
 - (v) The 6th Defendant to pay costs of RM200,000 and reimburse the Plaintiffs' expert witness costs of RM250,000.

The Bank and the other Defendants have filed their separate and respective appeals to the Court of Appeal ("the Appeals").

The Court of Appeal heard the Appeals on 12, 13, 15, 22, 23, 27 – 29 November 2018. The Appeals are now pending decision and clarification at a date to be notified by the Court of Appeal.

The Bank's solicitors are optimistic of the Bank's chances of succeeding in its appeal to the Court of Appeal.

Case 2

The Bank and four (4) other financial institutions (collectively known as "the Banks") are holders of 48.54% of the Redeemable Convertible Secured Notes ("the Notes") issued by a company ("the Borrower"). The Notes are secured by various security including charges over lands granted by the Borrower and other 3rd parties in favour of the trustee for the Banks ("the Trustee"). Upon the Borrower's default of its payment obligations, the Banks commenced action to recover the sums due under the Notes.

Subsequently, a company ("the 1st Defendant") and an individual ("the 2nd Defendant") (collectively known as "the Defendants") agreed to resolve the claims of the Banks with the 1st Defendant agreeing to purchase from the Banks all the Notes held by the Banks at a total purchase price of RM146,458,246.20. The Banks and the 1st Defendant entered into a Sale and Purchase Agreement in August 2014 ("the SPA") and the 2nd Defendant executed a guarantee in favour of the Banks guaranteeing all sums due under the SPA.

The Defendants subsequently defaulted on their payment obligations under the SPA and on 5 June 2015, the Banks commenced action against the Defendants for specific performance of the SPA or in the alternative, damages for breach of the SPA (as against the 1st Defendant) and for the balance purchase price (as against the 2nd Defendant).

On 22 July 2015, by way of a counterclaim against the Banks and the Trustee, the Defendants prayed for 11 declarations against the Banks and the Trustee and among other prayers, claimed that the Defendants are entitled to the restoration of the sums of RM14,645,824.62 (10% deposit payment) and RM1 million (ex-gratia payment) paid by the 1st and 2nd Defendants respectively, being the sums forfeited by the Banks upon breach of the SPA as well as for interest, costs and damages to be assessed.

The Banks filed an application for summary judgement against the Defendants and an application to strike out the Defendants' counterclaim. The Defendants had on 19 August 2015 filed an injunction application to restrain the Trustee from proceeding with foreclosure proceedings and the Bank from enforcing the Put Option Judgement pending disposal of the counterclaim action against the Banks and the Trustee.

The Banks opposed the injunction application and on 3 September 2015, the court dismissed the injunction application with costs ("High Court Order"). The Defendants appealed to the Court of Appeal against the High Court Order ("Appeal") and in the interim applied to the Court of Appeal for an interim injunction pending disposal of the Appeal. On 8 September 2015, the Court of Appeal dismissed the motion for interim injunction with costs.

On 5 October 2015, the High Court allowed the Banks' application for summary judgement and application to strike out the counterclaim with costs. Accordingly, the Defendants' counterclaim against the Banks have been struck out ("Striking Out Order") and judgement has been entered against the Defendants for the balance purchase price under the SPA ("Summary Judgement").

On 23 October 2015, the Defendants filed their respective appeals to the Court of Appeal against the Striking Out Order and the Summary Judgement ("the Appeals").

(15938-H)

(Incorporated in Malaysia)

29. Commitments and contingencies (Cont'd)

Contingent liabilities (Cont'd)

Case 2 (cont'd)

On 6 December 2016, the Court of Appeal unanimously dismissed the Appeals with costs of RM20,000 to be paid by the Defendants to the Banks for each of the Appeals ("COA Decision").

On 30 December 2016 and 5 January 2017, the 1st Defendant and 2nd Defendant filed their respective applications to the Federal Court for leave to appeal to the Federal Court against the COA Decision ("FC Leave Application"). On 26 April 2017, the Federal Court allowed the FC Leave Application. The 1st Defendant and the 2nd Defendant can now file their appeals to the Federal Court against the Summary Judgment ("FC Appeals"). On 15 March 2018, the Federal Court unanimously dismissed the FC Appeals with costs of RM20,000 for each appeal respectively. The Company and the Guarantor filed their respective motions to the Federal Court to review the Federal Court Decision ("FC Review Application"). On 28 January 2019, the Federal Court dismissed the FC Review Application with costs of RM30,000. On 22 February 2019, Million Westlink and the Guarantor filed an originating summons before the High Court for declaratory reliefs with a view to have the Federal Court Decision set aside ("2019 OS"). On 22 March 2019, Million Westlink and the Guarantor filed an application for the High Court to refer the constitutional issues before it is filed to the Federal Court for determination ("Reference Application"). Four of the Plaintiffs filed an application to strike out the 2019 OS and the Reference Application ("Banks' Striking Out Application"). Both the Banks' Striking Out Application and the Reference Application is fixed for hearing on 15 October 2019. The 2019 OS is fixed for case management on 15 October 2019.

Separately, in respect of the suit filed by another noteholder against the Trustee and the Banks to seek various declarations on or in respect of resolutions relating to the recovery of outstanding amounts owed under the Notes, the suit is now pending hearing of the appeal to the Federal Court. The hearing, which was fixed for 22 July 2019, has now been vacated and a case management date has been fixed for 17 July 2019. The Guarantor also obtained an ex parte Receiving Order on the grounds that there is a purported scheme of arrangement for the creditors' consideration. The Banks successfully set aside the Receiving Order on 17 May 2017. The Guarantor has appealed to the Court of Appeal against the setting aside of the Receiving Order.

The above matters are currently pending hearings before/decision from the respective Courts.

The Bank's solicitors are of the view that the Bank has a fairly good chance in succeeding before the Federal Court.

30. Segment information

Segment information is presented in respect of the Group's business segments.

The business segments are prepared based on internal management reports, which are used by senior management for decision-making and performance management. The amounts for each business segment are shown after the allocation of certain centralised cost, funding income and the applicable transfer pricing where appropriate. Transactions between segments are recorded within the segment as if they are third party transactions and are eliminated on consolidation. All intersegment transactions are conducted at arm's length basis on normal commercial terms that are not more favourable than those generally available to the public.

Financial results and other information by business segments include items directly attributable to a segment, as well as those that can be allocated on a reasonable basis.

The Group's business segments are defined and categorised as follows:

(i) Pillar 1 - Investment banking and advisory

Investment banking and advisory focus on business needs of mainly large corporate customers and financial institutions. The products and services offered to customers include corporate advisory services, bond issuance, equity issuance, syndicated acquisition advisory services and debt restructuring advisory services.

(ii) Pillar 2 - Equities

Equities primarily engage in the shares and futures broking services, derivative financial instruments, custodian and nominees services.

(iii) Others

Others includes share of results from investment in a joint venture.

31. The operations of Islamic Banking Scheme ("IBS") (Cont'd)

(h) Fair values of financial assets and liabilities

The estimated fair values of those on-balance sheet financial assets and financial liabilities as at the reporting date, which are considered short-term in maturity, approximate their carrying amounts as shown in the statements of financial position.

(i) Allocation of income

The policy of allocation of income to the various types of deposits and investments is subject to "The Framework of Rate of Return" issued by Bank Negara Malaysia in October 2001. The objective is to set the minimum standard and terms of reference for the Islamic banking institution in calculating and deriving the rate of return for the depositors.

(j) Shariah committee

The operation of IBS is governed by Section 28 and 29 of Islamic Financial Services Act, 2013 ("IFSA"), which stipulates that "a licensed institution shall at all times ensure that its aims and operations, business, affairs and activities are in compliance with Shariah and in accordance with the advice or ruling of the Shariah Advisory Council ("SAC"), specify standards on Shariah matters in respect of the carrying on of its business, affair or activity" and Section IV of BNM's "Guidelines on the Governance of Shariah Committee for The Islamic Financial Institutions" known as the Shariah Governance Framework ("SGF") (which supersedes the BNM/GPS 1), which stipulates that "every Islamic institution is required to establish a Shariah Committee".

Based on the above, the duties and responsibilities of the Group's and the Bank's Shariah Committee are to advise on the overall Islamic Banking Scheme operations of the Group's and the Bank's business in order to ensure compliance with the Shariah requirements.

The roles of the Shariah Committee in monitoring the Group's and the Bank's activities include:

- (i) To advise the Board on Shariah matters in its business operations;
- (ii) To endorse Shariah Compliance Manual;
- (iii) To endorse and validate relevant documentations;
- (iv) To assist related parties on Shariah matters for advice upon request;
- (v) To advise on matters to be referred to the SAC;
- (vi) To provide written Shariah opinion; and
- (vii) To assist the SAC on reference for advice.

The Group and the Bank presently have seven Shariah members.

MAYBANK INVESTMENT BANK BERHAD (15938-H) (Incorporated in Malaysia)

32. Fair value of financial instruments

Fair value hierarchy

The Group and the Bank classify its financial instruments measured at fair value according to the following hierarchy, reflecting the significance of the inputs in making the fair value measurements:

(a) Level 1: Quoted prices

Refers to financial instruments which are regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, and those prices which represent actual and regularly occurring market transactions in an arm's length basis. Such financial instruments include actively traded government securities, listed derivatives and cash products traded on exchange.

(b) Level 2: Valuation techniques for which all significant inputs are, or are based on, observable market data

Refers to inputs other than quoted prices included those within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices). Examples of Level 2 financial instruments include over-the-counter ("OTC") derivatives, corporate and other government bonds and iliquid equities.

(c) Level 3: Valuation techniques for which significant inputs are not based on observable market data

Refers to financial instruments where fair value is measured using significant unobservable market inputs. The valuation technique is consistent with the Level 2. The chosen valuation technique incorporates the Group's and the Bank's own assumptions and data. Examples of Level 3 instruments include corporate bonds in illiquid markets, private equity investments and loans and advances priced primarily based on internal credit assessment.

The following table shows the Group's and the Bank's financial assets and liabilities that are measured at fair value analysed by level within the fair value hierarchy as at 31 March 2019 and 31 December 2018.

Group and Bank	Quoted Market Price (Level 1) RM'000	Valuation tech Observable Inputs (Level 2) RM'000	nniques using Unobservable Inputs (Level 3) RM'000	Total RM'000

MAYBANK INVESTMENT BANK BERHAD (15938-H) (Incorporated in Malaysia)

32. Fair value of financial instruments (Cont'd)

Valuation techniques

The valuation techniques used for the financial and non-financial instruments that are not determined by reference to quoted prices (Level 1), are described below:

(a) Financial assets at fair value through profit or loss

The fair values of financial assets and financial investments are determined by reference to prices quoted by independent data providers and independent broker quotations.

(b) Derivative financial instruments

The fair values of the Group's and of the Bank's derivative financial instruments are derived using discounted cash flows analysis, option pricing and benchmarking models.

33. Financial Effects arising from Adoption of MFRS 16 Leases

The adoption of MFRS 16 resulted in the following financial effects to the statements of financial position of the Group and of the Bank:

	As at 31 December 2018 RM'000	Impact of adopting MFRS 16 RM'000	As at 1 January 2019 RM'000
